

LifeDesk[®]
WORK HEALTHIER.

**Sit Less.
Be Healthy.
Do more.**

"At LifeDesk we believe in working healthier. With 20 years of experience, we've designed a sit to stand desk that marries ergonomic function with stunning aesthetics."

LIFEDESK: QUALITY, AFFORDABILITY & SPEED

WARRANTY

IN - STOCK INVENTORY

While others may have the luxury of Just in Time manufacturing, we know that some people need their height-adjustable desks quickly to resolve musculoskeletal pain. Therefore, we can usually ship an order of up to 25 LifeDesk bases in less than one week.

ISO CERTIFIED

LifeDesks are made in an ISO 9001 (for quality standards) and an ISO 14001 (for environmental standards) Certified facility.

AFFORDABLE

The old idea of electric height-adjustable desks are expensive is gone. Now, with the LifeDesk, you can alternate sitting and standing for better health and productivity for less than the price of an ergonomic task chair.

*"Quality, affordability, stability, and speed.
The LifeDesk has you covered."*

KEYPOINTS TO REMEMBER

1. The LifeDesk (2 and 3-leg) is WIDTH-Adjustable too!
2. Don't be fooled by other manufacturers' freight schemes! We have a "What You See Is What You Get" Pricing Policy. No surprises, no freight calculations, no pricing ploys to lure you in with a "seemingly" low price, only to find freight charges later.
3. We have inventory in stock!
4. The LifeDesk is low cost because we believe in making worker health and ergonomics affordable. Our LifeDesk has gone head to head in quality comparisons with the established market leaders, and we've beaten them consistently.
5. The LifeDesk weight-load capacity exceeds competitors by more than 100 pounds on average!
6. ISO 9001 (for quality) and ISO 14001 (for environmental stewardship)
7. We only use electric-height adjustability because it is the safest for the user and it is the least expensive technology now.
8. 5 Year Warranty

Thank you for making it affordable for people to work healthier!
